DIGITAL FACILITY

SYSTEM INTEGRATION & FACILITY MANAGEMENT
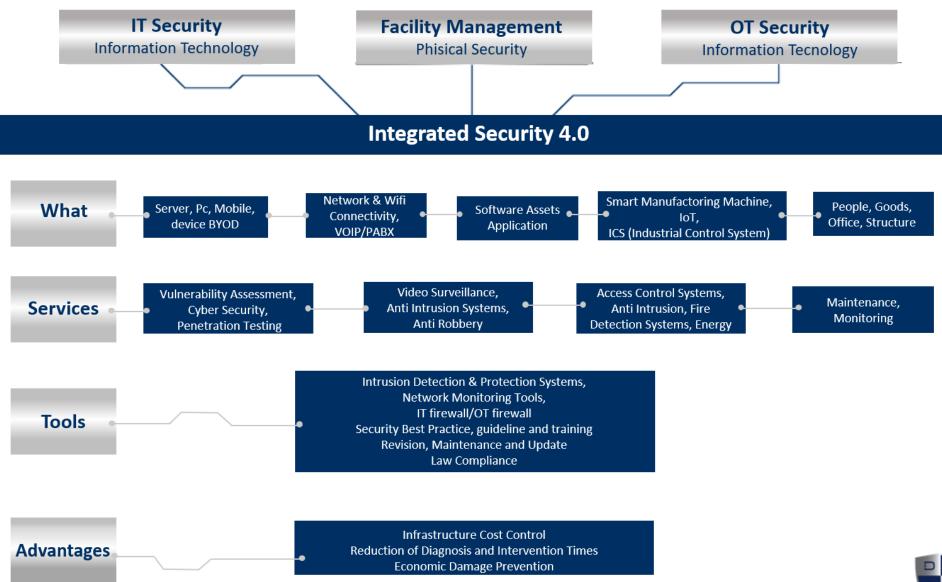

FULL CONTROL 4.0

| ABOUT US |

Digital Facility has been involved in system integration and facility management for over 15 years.

It designs, creates and implements integrated solutions in line with industry 4.0. It joins customer's business model, updating the organizational and processes model through a consultancy partnership.

Today system integration and facility management allow to obtain a global security, an integrated vision of needs and services, to guarantee greater control, **timely programming and total prevention.**

| INTEGRATED SECURITY 4.0 |

IT Security	Facility Management	OT Security
Information Technology	Phisical Security	Information Tecnology

Integrated Security 4.0

What
- Server, Pc, Mobile, device BYOD
- Network & Wifi Connectivity, VOIP/PABX
- Software Assets Application
- Smart Manufactoring Machine, IoT, ICS (Industrial Control System)
- People, Goods, Office, Structure

Services
- Vulnerability Assessment, Cyber Security, Penetration Testing
- Video Surveillance, Anti Intrusion Systems, Anti Robbery
- Access Control Systems, Anti Intrusion, Fire Detection Systems, Energy
- Maintenance, Monitoring

Tools
- Intrusion Detection & Protection Systems,
- Network Monitoring Tools,
- IT firewall/OT firewall
- Security Best Practice, guideline and training
- Revision, Maintenance and Update
- Law Compliance

Advantages
- Infrastructure Cost Control
- Reduction of Diagnosis and Intervention Times
- Economic Damage Prevention

| SYSTEM INTEGRATION |
